System

LEWMAR

Introduction

Lewmar is the world's leading manufacturer of yacht winches. Our manufacturing facilities set the highest standards in quality materials and performance. Each Lewmar winch is tested to ensure that at all stages in the manufacturing process it conforms to the Lewmar requirements of dimensional accuracy, rated strength and operating efficiency. Our winches are approved to Lloyds standards and in practice are in excess of them.

Lewmar winches are constantly being tested in the latest racing competition, aboard leading ocean racers around the world and, whether racing or cruising, they are rated for their long life and performance.

However, as with any precision engineered assembly, Lewmar winches need regular maintenance to operate at peak efficiency and, without this attention, permanent damage and premature wear can result.

This Manual gives the most complete details of the sequence and techniques required to dismantle completely, service and assemble each winch in the Lewmar range.

Lewmar has a worldwide network of offices and distributors who carry stocks of spare parts and spare kits. Expert advice and assistance is available for any servicing or repair problem.

Warranty Details

Lewmar winches have been developed over many years by extensive testing aboard the world's finest ocean racers, long distance cruising yachts and match racing yachts such as 12 metres. They are manufactured to quality standards in excess of those required by Lloyds and only the finest materials are used.

If installed, used and maintained as described in this Manual they will give outstanding performance.

Lewmar undertake that any winch which proves defective in materials or workmanship within one year of the date of supply will be repaired or replaced FREE OF CHARGE provided that the winch is returned by the registered owner to the nearest Lewmar office or distributor for examination. Lewmar reserve all rights on determining the nature of the alleged fault and their decision is final.

Any warranty expressed or implied is ineffective unless the winch has been installed, used and regularly serviced in accordance with our instruction.

Service Notes

For satisfactory long term performance and product life these winches must be given the routine and full maintenance procedure described below.

- MONTHLY:** All Lewmar winches should be hosed down with fresh water then lightly oiled and greased as detailed in the separate free leaflet, "How to service your Lewmar Winch".
- TWO OR THREE TIMES DURING ACTIVE SAILING SEASON:** All Lewmar winches should be stripped, cleaned and relubricated.
- AT THE END OF EACH SAILING SEASON OR BEFORE STARTING THE NEW SEASON:** All Lewmar winches should be completely stripped, cleaned, thoroughly checked for damage, lubricated and reassembled as detailed in this Service Manual.

Dismantling

Lewmar winches are simple to dismantle and are designed for easy maintenance. The exploded view drawings show how the component parts can be removed easily from each winch.

Assembly

Winches must be assembled in the reverse sequence to the order of dismantling.

Mounting

All winches must be mounted using the correct size and type of retaining bolts. Having decided on the correct winch position, the drum must be removed as detailed in the maintenance instructions for mounting. The winch must be mounted on a flat clean surface.

The hole centres for the winch retaining bolts must be marked off and drilled separately. The winch should be bedded on a LIGHT coating of sealing compound to stop leaks — too much compound gets in the gears and pawls.

The winch retaining fastenings must be securely tightened (but not overtightened). The winch is self draining and care must be taken to ensure the drain holes are not blocked.

Handles

All current winches accept any standard international handle (Lewmar red grip handle).

Recommended Lubricants

Grease

Lewmar Grease 7010 (Lubriplate Marine Lube 'A', etc.)

Oil

Light Machine Oil (3-in-1 or equivalent)

Service and Spares

Full service facilities for Lewmar winches are provided at our factory and subsidiary companies and by our distributors and service centres worldwide.

A full listing is provided on the inside back cover.

Parts pricing is subject to change. Apply to your nearest Lewmar office or distributor for current price lists.

Lloyd's Certificate

Lloyd's make a very careful examination of the material, design, construction, quality control and test procedures used by Lewmar and approved all the existing systems without alteration. Lewmar's existing standards proved to be higher than were required by Lloyd's.

Spares Kits

7001 **Basic Winch Servicing Kit** (4 circlips, pawls, pawl springs)

7002 **Winch Servicing Kit** (4 circlips, 8 pawls, 12 pawl springs, 3 keys, 2 pan head screws - self tailers)

7003 **Three Speed Winch Servicing Kit**

7009 **Allen Key set**

7010 **Grease, Packed in handy 100g plastic tube.**

7011 **Grease, Packed in handy 300 gm plastic tub.**

Packed in handy 100g plastic tubes, or 300 gm tubs, this waterproof grease contains solid activation which aids the load carrying characteristics of a winch. It is also suitable for trailer wheel bearings, steering gear, hydraulic equipment, outboard engines and many other marine applications.

7012 **Assembly Paste, Packed in a handy 300 gm tub.**

Ask your nearest Dealer/Distributor for a copy of the "How to Service your Lewmar Winch".

Lewmar Guarantee

Lewmar winches have been developed over many years by extensive testing aboard the world's finest ocean racers, long distance cruising yachts and match racing yachts such as 12 metres. They are manufactured to quality standards in excess of those required by Lloyds and only the finest materials are used.

If installed, used and maintained as described in this leaflet, they will give outstanding performance.

Lewmar undertake that any winch which proves defective in materials or workmanship within 1 year of the date of supply will be repaired or replaced FREE OF CHARGE provided that the winch is returned by the registered owner to the nearest Lewmar office or distributor for examination. Lewmar reserve all rights on determining the nature of the alleged fault and their decision is final.
